

## Diggin' Dirt

Welcome to the first (and not only) edition of Diggin' Dirt!

Spring has sprung! So it's time to start thinking dirt...

What are your thoughts on growing some vegetables in the back flower bed at the church? The goal would be to provide an opportunity for harvesting fresh vegetables to those who don't have the ability to plant a garden.

- Eggplant, Sweet peppers, Cherry tomatoes, Squash / Zucchini...

Have a special flower that you'd like to see before / after mass?

Please send your comments / thoughts / ideas on anything "garden" to the email link below.
