

## Diggin' Dirt – Vol. 3

We'll start this edition of Diggin Dirt out with really, Really, REALLY SWEET news!

What is believed to be the first ever Richard L. Haeg Memorial Super Sweet Tomato has been planted in the SJtBP Church Gardens!

We planted Richard's favorite (a Sun Sugar cherry tomato) in honor of a man that gave far more to the church than we could possibly ever repay.

*"Sun Sugar was named by Sunset magazine as the best tasting tomato in their trials for its sweetness and rich tomato flavor"*

There is only one way to find out if this tomato could ever be as sweet as Richard was; come and taste it for yourself. If you need some tomatoes for your meals, please help yourself but remember to leave some for your neighbors.

It is located in the back garden bed by the kitchen door.

A correction to the address for:

Pattison Farm (ask for John Elton – former St. Johns garden master)  
7001 Rolling Ridge Rd., St Cloud, MN 56303

If you like the idea of having fresh vegetables available at the church, please let us know via the email link below.
